PRODUCTS THAT PROTECT

HYGIENE AND SAFETY

How to protect and care for the artistic heritage in which Italy is outstandingly rich? A good example is the work done by Fila in the Villa Contarini-Camerini at Piazzola sul Brenta (PD): a Venetian villa in Baroque style, built by Andrea Palladio in the late 16th century. Here Fila has formed an important partnership with the Veneto Region for the care and maintenance, both ordinary and extraordinary, of the 6,000 square meters of flooring laid quality materials (terrazzo, cement tiles, wood and marble inlay), and for the cleaning and sanitization of all the areas open to visitors. For routine maintenance it provides Cleaner Pro, the non-aggressive neutral professional detergent, which leaves no residue and does not affect the materials, with excellent results without rinsing. To thoroughly degrease and remove the surface wax layer, PS87 Pro alkaline detergent is used and subsequently, to protect the material and add a glossy effect, the floors are waxed with Longlife self-polishing water-based wax. To sanitize the spaces during routine maintenance, the new environmentally friendly detergent Sanifast was chosen, while Rapidisan eco-sanitizer spray is used to disinfect contact surfaces and those of small dimensions, such as worktops or handles.

NEW FABRICS

SARTORIAL DETAILS

Through the No-Made collection, Somma 1867, a brand of the Gabel Group, has indulged itself in experimenting: from jacquard dyed yarn of mixed linen, garment dyed and washed, to satin likewise garment washed and with a super soft finish. The quality and richness of the textile, together with the technical mastery wholly made in Italy with which it has been produced, have created a refined and elegant line that can easily fit into any nighttime setting, bringing with it true messages of poetry and pleasure. The designs are Siwa and Nubra, both interpreted in sets of sheets and sets of duvet cover and quilt. The former is made of printed satin, garment washed, with a soft finish to the touch; the second is a skillful combination of jacquard mixed linen and satin. The Nubra design also features maxi plaids, jacquard throws, furnishing cushions and a new range of accessories, such as the dressing gown and shoppers. M.J.
