- PLUS SPIRAL STAIRCASES AND SMALL-SPACE RULES TO BREAK

## RESTAURANT READY

As beautiful as your kitchen cabinetry might be, it can be instantly let down if your appliances aren't up to scratch aesthetically speaking - and, of course, no kitchen is a joy to be in if they're performing sub-optimally, too. Luckily, neither are an issue for Unox Casa's SuperOven Model 1S, which won a Red Dot Design Award this year. It's the oven to buy if you want restaurant-level excellence in your kitchen - keen cooks will have a field day with the 400-plus cooking programmes on offer.
